PRICE ONE CENT

THAT UNION DEFICIT GETS ANOTHER JOLT

Record Attendance Last Week Beaux Arts Competitors Eat At Work

The report for the week ending March 7 has been the most satisfactory yet and shows the largest attendance this year. Last Monday was the biggest day, attendance at luncheon being 400, and 64 were served at dinner Friday night. Wednesday night an excellent dinner was served to members of the Tech Christian Association and also to the English High School Club. Hereafter a table will be reserved for the English High School Club every Thursday noon.

Last Saturday lunch was served to twenty-five fellows who were here from different colleges to take part in Beaux Arts Prize Competition. They worked on a problem all day in the Architectural Department and in the evening dinner was served to them at their work.

The Mechanical and Civil Engineers, the Architects and the Tech Show men still retain their tables and a cordial invitation is extended to all who belong to these respective societies.

It might be in order here to say that all students wishing to have their shoes shined will be tenderly cared for by our colored friend, Arthur Campbell, for a small consideration.

TECH MAN ENGAGED

Mrs. John G. Webb, of Springfield, O., announced on March second the engagement of her daughter, Miss Glennia Webb, to Charles E. Tilton, Jr. Mr. Tilton is a graduate of Harvard in the class of 1908 and is now a senior at M. I. T.

On the date of the announcement a small luncheon was given by Mrs. Webb to some of her daughter's intimates at her residence.

M. E. SOCIETY WILL ELECT OFFICERS TONIGHT

Interesting Speakers Engaged For Banquet At Boston City Club

The complete list of nominees for the several offices of the Mechanical Engineering Society have been received as follows: For chairman the men nominated are: E. R. Hall, M. Mackenzie, N. S. Seeley and K. Barr; for vice-chairman, H. C. Brown; for secretary, M. D. Price and F. Russell; for treasurer, H. S. Lord; and for the executive committee, D. P. Allen, H. S. Smith and A. F. Kenrick. The elections will be held at the banquet tonight. Those members desiring to vote and unable to attend the dinner may leave their names in the box in Eng. A or at the Cage, for A. P. Truette, secretary, after four o'clock, and receive their ballots. The ballots of these men must be in before six o'clock.

The banquet will be held at the Boston City Club, 9 Beacon Street, at 6.30 P. M. Tickets are \$1.50 and must be secured Tuesday morning. Among those who will speak are President Locke of the Y. M. C. U., Mr. C. C. Peirce 1887, connected with the railway department of the General Electric Company, and Prof. Lanza, head of the Mechanical Engineering Department. Mr. Peirce was the successful manager of both the alumni reunion at Nantasket last year and the banquet at Symphony Hall. Efforts will be made to procure Pres. Maelaurin and other prominent speakers for the banquet.

"STUNG"

An Alluring "Date Downtown" Proves Disappointing

He put on his glasses, took his "Steam" from the book-rack, and settled down in the rocker. When, five minutes later, I noticed that he had not gone to sleep as usual, but, instead, was gazing at his feet, which were reposing on the white bed-spread, I knew that something had happened.

"Well?" I ventured.

"I called for mail at the 'Cage' tonight and got two letters from a fellow downtown. He seemed anxious to see me—wants me to come down tomorrow at noon."

"Going?"

"I suppose so."

"Think it's a job?"

"Maybe."

I began the sixth hour of work on a simple little "Phys. Lab." report and let my room-mate gaze undisturbed at his shoes.

Next morning I was awakened by a scratching noise. It was room-mate, shaving. He seemed as painstaking as if he intended to meet the 143 at South Station on Saturday afternoon. Finally, after giving his best suit a vigorous brushing, and casting a farewell glance at the mirror, he went out to breakfast, a good half-hour earlier than usual.

That night room-mate came in late. He took off his best coat, tenderly hung it in the closet, put on his glasses, took his "Steam" from the bookrack, and settled down in the rocker. In less than five minutes his head was nodding. "Say!"

"Euh?" he asked, sleepily.

"What did that fellow want of you, downtown?"

"Darned life insurance agent!" he answered with a sleepy, sheepish grin.

WIRELESS SOCIETY REJECTS MEASURE

New Aerial System Near Completion—Kemp Resigns On Account Of Points

At the meeting of the Wireless Society, held yesterday afternoon at 4 P. M. in Room 11 Eng. B, the recent rulings of the Institute Committee were taken up and discussed. It was decided that the society should not accept the rulings of the committee. The following resolutions were drawn up and accepted:

Be it Resolved, That the Wireless Society not accept the measures submitted to it for action by the Institute Committee on the following grounds:

1st—That the measures are entirely too broad and not in keeping with the ideas as laid down in their constitution by the founders of said committee.

2d—The Wireless Society has no representative on said committee.

3d—The Wireless Society is an organization for scientific research and experimentation in the science of radio-telegraphy and telephony. In justice to its constitution and ideas, the Wireless Society does not desire to relinquish its right to self-control and submit to "any measure which the committee deems necessary" when said committee would not be in possession of the necessary facts enabling them to govern intelligently the operations and workings of such a society.

Be it further resolved, That the Wireless Society support the Point System new in operation.

Edw. H. Guilford 1912 reported that a 31-foot pole had been purchased and that its erection would take place towards the last of this week. By means of this pole the aerial wires will be elevated a distance of 130 feet above the level of the street. Needless to say, a very wide receiving range may be obtained by its use.

A committee was appointed to design and make the complete aerial system, excepting the pole. L. W. Cooper 1912 was elected chairman, with E. W. Weymouth 1913 to assist him.

The resignation of H. D. Kemp 1912 was accepted to take effect immediately. Mr. Kemp was obliged to resign on account of having too many points.

H. W. Hall 1912 was elected to fill the vacancy caused by Mr. Kemp's resignation.

The question of another lecture on wireless telegraphy was taken up, it being decided that one should be held towards the end of March.

The meeting adjourned at 4.45 P. M.

ANOTHER GYM MEET

Friday evening the Gym team will meet the crack team from the College of City of New York in the third contest of the season. The visitors have held the championship for a number of years, losing it last year to Columbia, and this winter they have a squad that compares favorably with the other college teams.

Manager Jacoby reports that the Institute team is in fine condition and all the men are practising hard in order to be at their best in the meet Friday. The Technology team has held two meets, one with Lowell Textile and the other with Amherst. In the Lowell meet, the decisions were in favor of Lowell, although Tech gave as good if not a better exhibition than did their opponents. The Amherst meet was close to the very finish, Tech finally losing by the score of 31 to 23.

COURSE V AND X MEN BUSY ON THESIS WORK

Twenty Course X And Ten Course V Men To Graduate At End Of Term

The candidates for the degree of B. S. in Courses V and X have all chosen the titles of their theses and are now at work on them. This year twenty men in Course X are eligible for the degree of B. S.; this is the largest number in the history of the Course. Below is a comparison with the successful candidates of previous years:

Graduates of Course X in 1905,	13
Graduates of Course X in 1906,	10
Graduates of Course X in 1907,	14
Graduates of Course X in 1908,	15
Graduates of Course X in 1909,	13
Candidates for graduation 1910,	20

There are ten candidates for graduation in Course V this year, including one woman.

Comparing with previous years in this Course:

1905 Graduates of Course V,	23
1906 Graduates of Course V,	21
1907 Graduates of Course V,	10
1908 Graduates of Course V,	16
1909 Graduates of Course V,	12
1910 Candidates for graduation,	10

Below we give a complete list of Course V theses, and a partial list of Course X theses. The complete list of these theses will be published in a later issue.

THESES SUBJECTS OF COURSE V.

Harrison L. Clough—Influence of Temperature and Time of Drying in the Tensile Strength of Leather.

Arthur R. Dunbar—Classification of Tropical Cane Molasses.

Miss Helen L. Fales—The Determination of Benzoic Acid in Foods.

Ralph E. Gegenheimer—The Ternary Alloys of Lead, Tin and Silver.

E. Kenyon Jenckes—New Dyestuffs of 1909.

George R. Lord—Investigation into the Effects of Iron and Alum Treated Waters upon Distributing Pipes.

Walter W. Scofield, Jr.—Sterilization of Milk with Ozone.

Laurence C. Shaw—Investigation of the Conversion Products of Starch by Acid Hydrolysis and Torrefaction in their Bearing on the Structure of the Starch Molecule.

Myron K. Sweet—The Determination of Capsicum in Ginger Preparations.

Lewis W. Waters—A Study of Homogenized Milk.

COURSE X THESES.

C. Almy, Jr.—The Composition and Utilization of Galvanizing Waste.

D. Clapp—Denicotizing Tobacco.

K. W. Gasche—The Removal of Sulphur from Wool-Grease.

R. W. Jacoby—Recovery of Zinc from Bisulfite Wastes.

C. E. Meulendyke—Factors Controlling the Efficiency of Grinding by Ball-Mills.

C. P. Monto—Design of a Drying Plant for McElwain & Co.

J. H. O'Brien—The Removal of Oxygen from Boiler-Feed Water.

H. E. Stump—Relation of Viscosity of Solutions to Their Heat Transference.

R. R. Taylor—Influence of Excess Lime on the Properties of Calcium Carbide.

A. A. Stagg, football coach of the University of Chicago, will try out the latest football suggestions with a squad in the university gymnasium on his return from the University of Arkansas, where he has gone to see the teams there test the proposed 1910 rules. Stagg says the indoor experiment will lack but few of the elements of outdoor practice.

GENERAL NEWS

TELEGRAPH NEWS OF THE MORNING.

WEATHER REPORT.

Washington, D. C., March 8.—Fair and cooler. Moderate westerly winds.

Boston, March 8.—A petition for the pardon of C. F. King, the former Boston financial agent, now serving a 10-year sentence, for grand larceny, in the Charlestown prison, is being proposed by L. J. Raymond to be presented to Gov. Draper and his council.

New York, March 8.—Henry H. Hughes, who says he represents a majority of the Democrats of Missouri, visited Mayor Gaynor at the City Hall and invited him to be the principal guest at the Jefferson Day banquet to be held in Springfield, Mo., on April 13. The invitation extended by Mr. Hughes, who is chairman of the dinner committee, carries with it by inference an invitation for Mayor Gaynor to become a candidate for the Democratic nomination for President in 1912.

South Bethlehem, Pa., March 8.—The Bethlehem Steel Company declares that a large number of men who did not go to work last week because of strike violence, returned to the plant yesterday, and that more men were at work yesterday than on Saturday.

Portland, Me., March 8.—Catching fire from some unknown cause shortly after she had docked upon arriving here from New York yesterday, the steamer Manhattan, owned by the Maine Steamship Company, was destroyed. The loss was placed at \$250,000.

Boston, Mass., March 8.—The American Society of Heating and Ventilating Engineers, a national organization to promote the science of heating and ventilating buildings, has recently appointed a committee of publicity, made up of one member in each State, to work for the improvement of the public health and happiness by spreading the gospel of ventilation.

Boston, Mass., March 8.—Two eight-oared shells and one eight-oared barge were shipped to Yale yesterday by W. H. Davy & Son, Cambridge boat builders. Two eight-oared barges were shipped a couple of months ago, making in all three barges and two eights added to Yale's flotilla this year.

New York, March 8.—Gifford Pinchot, who last week was the principal witness before the congressional committee investigating charges involving the Secretary of the Interior, addressed 2500 persons Sunday morning at Carnegie Hall on the general subject of "Conservation." Conservation of the national resources, the deposed forester said, was a moral problem and one in which every

person in the country should be interested vitally.

WASHINGTON, D. C.

Washington, March 8.—Meat prices have advanced in all the principal producing and consuming sections of the world, according to compilations just made by the Bureau of Statistics of the Department of Commerce and Labor.

Washington, March 8.—It was only by the personal appeal of President Taft to the Republican members of the House committee on interstate and foreign commerce that the commerce court provision was retained in the Townsend administration bill amending the interstate commerce act.

FOREIGN.

Monte Carlo, Monaco, March 8.—Half of the subjects of this principality marched to the palace yesterday, and waiting upon the Prince of Monaco, demanded a constitution, declaring that Monaco was the only absolute monarchy remaining on the face of the globe.

The prince received a deputation from the crowd and promised to consider its wishes.

Lisbon, March 8.—Two bombs were hurled into a room where a party of clerical candidates were dining today. The explosions killed two of the diners and wounded seven others, including the priest who was presiding.

London, March 8.—Premier Asquith announced in the House of Commons yesterday that the resolutions concerning the House of Lords, which are to be submitted by the government on March 29, would include a proposal for shortening the duration of Parliament. It is presumed that the recommendation will be for Parliamentary terms of five years instead of seven years, as at present.

Hamburg, March 8.—Prof. Herzegell lectured on the projected Zeppelin airship expedition to the North Pole. He said that the distance to be covered from Spitzbergen was 1875 miles, and they intended to travel in a west-northwest direction. After exploring the unknown regions they expected to anchor behind Greenland. They would remain in wireless communication with the starting point.

A reserve airship, Prof. Herzegell added, would be ready at Spitzbergen.

Naples, March 8.—Vesuvius has suddenly become active again. There has been a continuous eruption for the past two days of red-hot stones and ashes, this being accompanied by internal detonation. Several fissures have opened, from which gas and lava are emerging in great quantities.

NEWS FROM THE COLLEGES.

Members of the faculty of the University of Minnesota have pledged \$100,000 with which to build an apartment house for the use of the university professors.

Annapolis "plebes" are gloating over the victory which they registered over the upper classmen in the indoor track meet on Saturday, it being the first time that the first year men have ever won an athletic victory at Annapolis. But this year the youngsters have made a wonderful record in all athletic events, for besides breaking all but one of the track and field records, they were second in the interclass football series, finished high in interclass basketball, had two men on the regular football team, one on the gym team, and according to Coach Glendon, should make a strong bid for some places on the crew.

Highest Grades : Popular Prices

According to statistics recently compiled at Yale, more than 25 per cent. of the students who register fail to finish their courses. The figures show that in the classical department, 10 per cent. of the students do not graduate; in the scientific department, 30 per cent.; in the forestry department, 34 per cent.; in the divinity school, 31 per cent.; in the medical school, 27 per cent.

Professor Bliss Perry, head of the English department at Harvard, has completed a highly successful course of lectures at the Sorbonne. Dr. Henry van Dyke '73, was Professor Perry's predecessor in this annual course.

A course in agriculture which has been re-established at Columbia after a lapse of more than 100 years has an enrollment of 135.

Frederick Thompson, builder of Luna Park and the Hippodrome, has offered a prize of \$500 for the best American play written by a student of Yale. No limits are set on the construction of the play, but no foreign or historical setting will be accepted. Preference will be given to a drama dealing with current topics of vital interest.

DE WITT CHASE-CAPTAIN

At the meeting of the Hare and Hounds Club yesterday, E. W. DeWitt 1911 was elected Chase-captain and R. M. Ferry 1912 assistant Chase-captain. DeWitt has been very prominent in cross-country work, being the winner of the handicap cross-country race last year, and a substitute on the team that ran Harvard this year. Ferry is a leader in sophomore cross-country running and was also a substitute on the 'varsity team last fall.

CATHOLIC CLUB MEETING

At the meeting in the Union of the Catholic Club tomorrow at 8.15, Mr. Charles D. Maginnis of Boston, an architect of national reputation and a most interesting speaker on art, will give a talk on "Church Architecture," illustrated with lantern slides. Architects and others outside of the club who would be interested are invited to attend.

The dance committee have made their final arrangements and are now prepared to send the invitations to the friends of the members. The dance as planned by the committee this year will be far more extensive than that of last year. At present the committee are making plans for between 250 and 300. The committee urge all members to be present at this meeting as it is important that they should know the detailed arrangements for the dance.
